Current Issues of Interdisciplinary Research, Innovation and Sustainable Development

International Scientific and Practical Conference

21/05/2026 London. Tashkent

Dear professors and lecturers, researchers, independent scholars, master's students and students!

You are invited to participate in the International Scientific and Practical Conference on **"Current Issues of Interdisciplinary Research, Innovation and Sustainable Development,"** which will be held on **May 21, 2026**. The conference is dedicated to the in-depth analysis of current areas of scientific development, interdisciplinary research, innovative approaches, scientific and practical issues of sustainable development, as well as practical results.

This conference is aimed at discussing interdisciplinary research, innovative approaches, scientific methodology, ideas of sustainable development and practical outcomes. It will cover scientific studies in pedagogy, psychology, natural sciences, geography, space studies, technology, engineering, medicine, agriculture, economics, law, social sciences, philology, history, culture, art and other fields.

The conference provides participants with an opportunity to exchange scientific experience, establish new cooperation links and present their research results to the wider scientific community.

The conference will be organized without programme presentations, only in the form of a collection of scientific articles and theses!

Objectives and Tasks of the Conference

Objective

to support scientific research on current issues of interdisciplinary studies, innovative approaches and sustainable development, to develop scientific cooperation among representatives of various fields, and to present the achievements of modern science to the wider scientific community.

Tasks

— support interdisciplinary scientific research;
— promote innovative ideas and practical results;
— create a favorable platform for the exchange of scientific experience;
— involve young researchers in scientific activity;
— develop international and local scientific cooperation;
— put forward scientific proposals aimed at sustainable development.

Conference Sections

01 Innovative Development of Education, Pedagogy and Digital Teaching Technologies

02 Modern Trends in Natural Sciences, Geographical Research and Space Studies

03 The Role of Technology, Engineering and Digital Technologies in Sustainable Development

04 Current Issues of Economics, Finance, Entrepreneurship and Innovative Management

05 Medicine, Pharmaceuticals, Biological Safety and the Concept of a Healthy Society

06 Development of Social Sciences, Law, Public Administration and Civil Society

07 History, Cultural Heritage, Philology and Intercultural Communication

08 Issues of Agriculture, Environmental Sustainability and Food Security

Articles

Formatting Requirements

- Articles are accepted in Uzbek, Russian, English, Kazakh, Kyrgyz and Turkish. The article must be no less than 5 pages in length.
- Articles are accepted in electronic format. The text of the article must be edited, the relevant conference section must be indicated, and the article must be formatted on A4 paper with 1.5 line spacing, with margins of 2.5 cm at the top and bottom, 3 cm on the left, and 1.5 cm on the right.
- The article text must not be paginated. The electronic version must be prepared in Microsoft Word, using Times New Roman font, 14 pt.
- The file name must include the author's surname and the name of the organization. For example, if the author is from the National University of Uzbekistan, the file should be named as follows: "R. Toshmamatov UzNU".

- The title of the article must be written in capital letters. After leaving one blank line, the next line should indicate the name(s) of the author(s), their patronymic, and the name of the organization, as well as the e-mail address of the person responsible for correspondence.
- The list of references must be provided at the end of the article. The references should be formatted in accordance with the GOST style.
- The author(s) are fully responsible for the accuracy and reliability of the information presented in the article.
- The abstract and keywords must be written in Uzbek, Russian and English.

Conference materials will be published in electronic format on the Academic Research Publisher website and the Academic Research Publisher Telegram channel. Authors of the articles will be sent certificates with a QR code on May 24, 2026. Within the framework of the conference, the fee for services related to including articles and theses in the electronic collection, editorial and technical preparation, and the issuance of QR-coded certificates for authors is set at 70,000 UZS.1 percent of this fee will be allocated to charitable purposes as part of the conference's social responsibility initiative. These funds will support the treatment, rehabilitation and recovery processes of children suffering from hematological and oncological diseases, as well as children born with congenital heart defects.

The conference will not be held in a traditional format; it will be organized in the form of a collection of scientific articles. All articles will be published as an official collection.

Information on the acceptance of articles will be delivered to the authors within 1 working day.

Important Dates

Conference Date

May 21, 2026

Submission of Articles and Theses

until May 21, 2026

Publication Date of the Article
Collection and Certificates for Authors

May 24, 2026

ANALYSIS OF SLOPE STEEPNESS AND RELIEF ASPECT IN THE BERUNI DISTRICT BASED ON GIS TECHNOLOGIES

Kengesova Zumrad Asilbek qizi
National University of Uzbekistan
E-mail: zumradkengesova@gmail.com

Abstract. Terrain morphometric parameters play an important role in controlling natural processes and land-use suitability.....
Keywords: slope, aspect, terrain analysis, GIS, Beruniy District.....
Аннотация. В статье проведён анализ основных морфометрических показателей рельефа Берунийского района ….
Ключевые слова: уклон, экспозиция, анализ рельефа, …..
Annotatsiya. Mazkur maqolada Beruniy tumani relyefining asosiy morfometrik ko‘rsatkichlari bo‘lgan nishablik .....
Kalit so‘zlar: nishablik, ekspozitsiya, relyef tahlili, GIS, Beruniy tumani.....

Introduction. The Beruni District, located in the lower reaches of the Amu Darya River, is characterized by specific natural and geographical conditions …

Main Body. The study is based on a digital elevation model (DEM) of the Beruni District. During the research, geographic information system (GIS) technologies were applied …
