International Scientific-Practical Conference

THE HERITAGE OF ZAHIRIDDIN MUHAMMAD BABUR: HISTORY, LITERATURE, GEOGRAPHY AND THE INTEGRATION OF POLITICAL THOUGHT

Moscow, Astana, Osh, Petropavlovsk, Tomsk, Ankara, Tashkent

14 February 2026

UniScience

DEAR PROFESSORS, ACADEMIC STAFF, RESEARCHERS, DOCTORAL STUDENTS, MASTER'S STUDENTS AND YOUNG SCHOLARS

We invite you to take part in the International Scientific-Practical Conference entitled "The Heritage of Babur: History, Literature, Geography and the Integration of Political Thought," which will be held on 14 February 2026 and will be devoted to a comprehensive exploration of the scholarly legacy of the great statesman, military commander, and thinker Zahiriddin Muhammad Babur.

This conference is aimed at an interdisciplinary analysis of Babur's personality and works, as well as a reassessment of his historical activities, literary heritage, geographical views, and political thought using modern scientific methods. The event seeks to provide a deeper understanding of the Babur phenomenon within the intellectual traditions of the Eastern Renaissance, to discuss new research findings, and to expand international scholarly cooperation.

The conference will be organized without keynote or programmatic presentations and will be held exclusively in the form of a collection of scholarly articles.

Objective of the Conference

The principal objective of this International Scientific-Practical Conference is to undertake a comprehensive scholarly examination of the legacy of the great statesman and thinker Zahiriddin Muhammad Babur at the intersection of history, literature, geography, and political thought, as well as to reinterpret—on the basis of contemporary methodology—the historical processes, territorial descriptions, literary-aesthetic perspectives, and concepts of state governance reflected in his works.

The conference is also intended to achieve the following objectives:

- to discuss newly discovered archival sources and recent research findings related t Babur's legacy;
- to develop innovative scholarly approaches based on interdisciplinary integration;
- to broadly engage young researchers in studies within the field of Babur scholarship;
- to strengthen international academic cooperation and expand scholarly dialogue;
- to provide a deeper understanding of the role of Babur's heritage in the development of world civilization..

SCIENTIFIC DIRECTIONS OF THE CONFERENCE:

- The Era of Babur and the Baburid State: Historical Processes, Dynastic Policy, and State Structure
- “Baburnama” and Babur’s Literary Heritage: The Reflection of Historical Events, Social Life, and the Cultural Environment
- Space and Regions in Babur’s Legacy: Descriptions of Lands, Routes, Cities, and Territorial Perceptions
- Babur’s Political Thought: Power, Diplomacy, Military Strategy, and Governing Principles

Requirements for Article Formatting

- Articles are accepted in Uzbek, Russian, English, Kazakh, Kyrgyz, and Turkish. The length of the article must be no less than five pages;
- the edited text of the article, indicating the relevant scientific direction (section), must be formatted on A4 paper with 1.5 line spacing; margins: top and bottom — 2.5 cm, left — 3 cm, right — 1.5 cm. Formatted articles are accepted in electronic form;
- the text must not be paginated, and its electronic version must be prepared in Microsoft Word using Times New Roman font, size 14;
- the title of the article should be typed in capital letters; after one blank line, the author(s)' full name(s), institutional affiliation, and the e-mail address of the corresponding author should be indicated. At the end of the article, a list of references must be provided (formatted in accordance with GOST standards). The author(s) bear full responsibility for the accuracy and reliability of the information presented;
- the file name must include the author's surname and the institution name (for example, if the author is from the National University of Uzbekistan — "R. Toshmamatov O'zMU");
- the abstract and keywords must be provided in Uzbek, Russian, and English.

The conference materials will be published electronically on the **Academic Science Publishing** website and in the **UniScience** Telegram channel, and authors will receive QR-coded certificates on **17 February 2026**. The fee for submitting an article and abstracts to the conference is 60,000 Uzbek soums.

Deadline for submission: 13 February 2026

Conference date: 14 February 2026

The conference will not be held in a traditional format and will take place exclusively as a collection of scholarly articles. All materials will be published in an official proceedings volume.

Information on the acceptance of articles will be sent to authors within one working day.

Articles may be submitted to the email address unisciense@gmail.com, as well as via the following Telegram account: https://t.me/academic_r_p

The Organizing Committee reserves the right not to publish materials that do not correspond to the conference theme and the above-mentioned requirements.

ANALYSIS OF SLOPE STEEPNESS AND RELIEF ASPECT IN THE BERUNI DISTRICT BASED ON GIS TECHNOLOGIES

Kengesova Zumrad Asilbek qizi
National University of Uzbekistan
E-mail: zumradkengesova@gmail.com

Abstract. Terrain morphometric parameters play an important role in controlling natural processes and land-use suitability.....
Keywords: slope, aspect, terrain analysis, GIS, Beruniy District.....
Аннотация. В статье проведён анализ основных морфометрических показателей рельефа Берунийского района ….
Ключевые слова: уклон, экспозиция, анализ рельефа, …..
Annotatsiya. Mazkur maqolada Beruniy tumani relyefining asosiy morfometrik ko‘rsatkichlari bo‘lgan nishablik .....
Kalit so‘zlar: nishablik, ekspozitsiya, relyef tahlili, GIS, Beruniy tumani.....

Introduction. The Beruni District, located in the lower reaches of the Amu Darya River, is characterized by specific natural and geographical conditions …

Main Body. The study is based on a digital elevation model (DEM) of the Beruni District. During the research, geographic information system (GIS) technologies were applied …
