International Scientific and Practical Conference

«DEVELOPMENT OF SCIENCE: INNOVATIVE IDEAS AND PATHWAYS OF PROGRESS»

February 1, 2026

Moscow, Astana, Osh, Petropavlovsk, Tomsk, Ankara, Tashkent

The conference will be held without oral presentations and organized exclusively in the format of a scientific articles collection.

Dear Members of the Scientific Community!

We invite you to participate in the **International Scientific and Practical Conference** entitled **„Development of science: innovative ideas and pathways of progress“**, scheduled to be held on **February 1, 2026**.

The conference aims to deepen interdisciplinary integration among various fields of science in the context of modern scientific development, to promote innovative and contemporary methodological approaches in scientific research, and to strengthen the intrinsic linkage between fundamental theory and applied research.

The conference will be organized without oral presentations, exclusively in the format of a collection of scientific papers.

CONFERENCE OBJECTIVE. The main objective of this international scientific and practical conference is to highlight the theoretical and practical foundations of interdisciplinary integration in the context of modern scientific development, to integrate modern and innovative approaches in research conducted across various scientific disciplines, and to reinforce the interconnection between fundamental scientific theory and applied research.

In addition, the conference seeks to foster multidisciplinary scientific research, strengthen academic dialogue and cooperation, and promote scientific outcomes as practical solutions oriented toward the needs of the real sector and society.

Scientific Areas of the Conference: Scientific papers are accepted in the following areas:

🔬 **1. Modern Scientific Research in Fundamental and Natural Sciences**
(physics, mathematics, chemistry, biology, geological and mineralogical sciences)

🌍 **2. Modern Research in Geographical Sciences and Interdisciplinary Integration**
(physical and human geography, geoecology, landscape studies, GIS, remote sensing, cartography, climate change, and territorial monitoring)

⚙ **3. Innovative Approaches in Engineering, Technology, and Digital Systems** (technical sciences, engineering, information technologies, artificial intelligence, and digital systems)

🌱 **4. Agriculture, Ecology, and Sustainable Development Challenges** (agricultural sciences, ecology, rational use of natural resources)

📚 **5. Interdisciplinary Research in Social and Humanities Sciences** (history, philosophy, philology, sociology, political sciences, Islamic studies, art studies)

⚕ **6. Modern Approaches in Economics, Law, Education, and Healthcare** (economics, legal sciences, pedagogy, psychology, medicine, pharmacy, and veterinary sciences)

Participant Categories

- Professors and academic teaching staff
- Research fellows / scientific staff
- Doctoral candidates (PhD / DSc)
- Master's degree students
- Undergraduate students
- Independent researchers

Requirements for Article Submission:

- Articles are accepted in Uzbek, Russian, English, Kazakh, Kyrgyz, Tajik, and Turkmen languages. The length of the article must be at least 5 pages.
- The text should be edited and formatted on A4 paper, indicating the relevant section, with 1.5 line spacing and margins: top and bottom — 2.5 cm, left — 3 cm, right

— 1.5 cm. Articles are accepted in electronic format.

- The text must not be paginated; the electronic version should be prepared in Microsoft Word, using Times New Roman, size 14.
- The title of the article should be written in capital letters, followed by a line with the author(s)' name(s), affiliation, and the email of the corresponding author. At the end of the article, a list of references should be provided (formatted according to GOST style). Authors are fully responsible for the accuracy and reliability of the

information presented.

- The file name should include the author's surname and affiliation (e.g., if the author is from the National University of Uzbekistan — "R.Toshmamatov UzNU").
- Abstracts and keywords must be provided in Uzbek, Russian, and English.

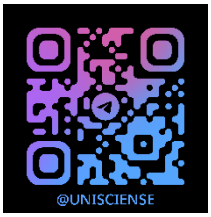

Conference materials will be published in electronic format on the **Academic Science Publishing** website, as well as on the **UniScience** Telegram channel. **QR-code certificates** will be sent to the authors of accepted papers on **February 12, 2026**. The conference submission fee for articles and abstracts is **7 USD (**84 142,66 **Uzbek soums)**.

Deadline for submission of materials: January 27, 2026. **Conference date: February 1, 2026**.

The conference will not be held in a traditional format; instead, it will be conducted exclusively in the form of a compiled collection of scientific articles. All accepted papers will be published as part of an official proceedings volume.

Authors will be notified of the acceptance of their submissions within one business day.

You may submit your articles to the following email address: academicsciencepublishing@gmail.com as well as to the following **Telegram account**: **https://t.me/UniSciense**

The Organizing Committee reserves the right not to publish materials that do not correspond to the conference scope and fail to meet the requirements specified above.

ANALYSIS OF RELIEF SLOPE AND ASPECT IN BERUNIY DISTRICT USING GIS TECHNOLOGIES

Kengesova Zumrad Asilbek qizi
National University of Uzbekistan
E-mail: zumradkengesova@gmail.com

Abstract. Terrain morphometric parameters play an important role in controlling natural processes and land-use suitability.....

Keywords: slope, aspect, terrain analysis, GIS, Beruniy District.....

Annotatsiya. Mazkur maqolada Beruniy tumani relyefining asosiy morfometrik ko‘rsatkichlari bo‘lgan nishablik .....

Kalit so‘zlar: nishablik, ekspozitsiya, relyef tahlili, GIS, Beruniy tumani.....

Аннотация. В статье проведён анализ основных морфометрических показателей рельефа Берунийского района ….

Ключевые слова: уклон, экспозиция, анализ рельефа, …..

Introduction. Beruniy District, located in the lower reaches of the Amu Darya River, is characterized …..

Main Part. The research is based on a digital elevation model (DEM) of Beruniy District. GIS techniques …..
