CALL FOR PAPERS

Tashkent International Science Forum

TISIF-2026

Tashkent, Uzbekistan | June 10, 2026

"Science Without Borders"

About TISIF-2026

The Tashkent International Science Forum (TISIF-2026) is a global, multidisciplinary scientific conference conducted in correspondence (remote) format. The forum brings together researchers, academics, practitioners, and innovators from around the world. There are no live presentations or sessions — all accepted works are published together as a Collection of Conference Materials (Proceedings).

Participants submit their research materials, which — after review — are compiled and published as an official conference proceedings collection. The forum is conducted in three languages: English, Russian, and Uzbek.
