INVITATION

Dear Members of the Academic Community!

ACADEMIC RESEARCH PUBLISHER invites you to participate in the International Scientific and Practical Conference **“MODERN SCIENCE: GLOBAL ACHIEVEMENTS, CURRENT CHALLENGES AND DEVELOPMENT PROSPECTS”**, to be held online on 8 August 2026, with Tashkent and London as its academic venues.

The conference provides an open academic platform for consolidating achievements across contemporary science, discussing current theoretical and practical challenges, strengthening interdisciplinary collaboration, and presenting innovative solutions to the wider academic community.

Submissions are welcomed in fundamental and natural sciences, engineering, digital technologies, geography and ecology, agriculture, medicine, economics, law, education, philology, social sciences and humanities, history, philosophy, and culture.

The conference will be conducted without scheduled oral presentations or live sessions. Papers and extended abstracts that meet the stated requirements will be published in the electronic conference proceedings.

WHO MAY PARTICIPATE

University faculty, researchers, doctoral candidates, independent researchers, master’s students, undergraduate students, and practitioners.

ACADEMIC DIALOGUE

Conference Aim and Objectives

A

MAIN AIM. To bring together current research across all fields of science, promote major achievements, examine pressing challenges through an interdisciplinary lens, and advance scientifically grounded solutions with practical value.

1 Scientific achievements

Present major research results and leading practices from diverse fields.

2 Current challenges

Identify and analyse theoretical, methodological, and practical problems.

3 Interdisciplinary collaboration

Build new academic connections and joint initiatives among researchers.

4 Innovative solutions

Advance ideas and developments that respond to societal and economic needs.

5 Supporting emerging researchers

Encourage the research activity of doctoral, master’s, and undergraduate students.

6 Research dissemination

Share findings through electronic proceedings and international digital platforms.

EXPECTED OUTCOME

Exchange of academic ideas, stronger international collaboration, and practical recommendations that support the application of current research.

ALL FIELDS OF SCIENCE

Conference Sections

1 Fundamental and Natural Sciences

Mathematics, physics, chemistry, biology, geology, astronomy, and other natural sciences.

2 Engineering, Technology and Digital Innovation

Engineering, energy, construction, architecture, IT, artificial intelligence, robotics, and cybersecurity.

3 Geography, Ecology and Sustainable Development

Geography, geoecology, cartography, geoinformatics, climate change, natural resources, and the environment.

4 Agricultural Sciences, Veterinary Medicine and Food Security

Agronomy, soil science, plant protection, animal science, veterinary medicine, and food technologies.

5 Medicine, Pharmacy and Public Health
